**Management's Discussion and Analysis**

**June 30, 2004**

**Using this Annual Report**

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide financial statements.

**The City as a Whole**

The City combined net assets increased 5.92% from a year ago from \$7,738,000 to \$8,196,000. As we look at the governmental activities separately from the business-type activities, we can see that the governmental activities experienced an increase, of approximately \$722,000 during the year (85.1% increase). This was the result of increases in Debt Service Fund Net Assets and Major & Local Street Net Assets. The business-type activities experienced a \$264,000 decrease in net assets, primarily as a result of depreciation of \$511,000. In a condensed format, the table below shows a comparison of the net assets (in thousands of dollars) as of the current date to the prior year:

	Governmental Activities		Business-Type Activities		Total	
	2003	2004	2003	2004	2003	2004
Current Assets	\$ 2,305	\$ 2,631	\$ 909	\$ 1,059	\$ 3,214	\$ 3,665

Unrestricted net assets, the part of net assets that can be used to finance day to day operations, increased by \$353,000 for the governmental activities. This represents an increase of approximately 19.7%. The current level of unrestricted net assets for our governmental activities stands at \$2,148,000, or about 68.5% of expenditures. This is within the targeted range set by the City during its last budget process.

**CITY OF MARINE CITY**

**Management's Discussion and Analysis**

**June 30, 2004**

The following table shows the changes of the net assets (in thousands of dollars) as of the current date to the prior year:

<b>Change in Net Assets</b>	<b>\$ 722</b>	<b>\$ (264)</b>	<b>\$ 458</b>

Included in governmental activities revenues and business-type activities expenses is a transfer of approximately \$60,000 between these activities.

The City's net assets continue to remain healthy. Net assets grew by \$458,000. This was primarily because of increases in Net Assets of Governmental Activities.

**Governmental Activities**

Since this is the first year that the City's financial data has been determined under GASB 34, comparisons to previous periods are not available. Comparisons will be provided in future years.

## Management's Discussion and Analysis

June 30, 2004

### **Business-Type Activities**

The City's business-type activities consist of the Water and Sewer Fund. We provide water and sewer treatment to all City residents. We experienced a decrease in our net operating loss. This was primarily due to an increase in user fees in the amount of approximately \$90,000 and an increase in contractual sewage treatment revenue.

### **The City's Funds**

Our analysis of the City's major funds begins on page 5, following the entity-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the City as a whole. The City creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages. The City's major funds include the General Fund, the Major & Local Street Funds, and the 1991 Unlimited Bond Series A Debt Fund.

The General Fund pays for most of the City's governmental services. The most significant are police and fire, which incurred expenses of approximately \$1,050,000. These two services are supported by general tax revenues of the City and State Revenue Sharing. In addition, the General Fund expended approximately \$665,000 on Public Works. These two areas represent approximately 61% of the General Fund's total expenditures.

### **General Fund Budgetary Highlights**

Over the course of the year, the City amended the budget to take into account events during the year. There were no significant changes during the year. The City's departments overall stayed within the budget, resulting in total expenditures \$225,952 below the budget. This allowed the General Fund's fund balance to increase from \$356,977 a year ago to \$471,784 at June 30, 2004.

### **Capital Asset and Debt Administration**

At the end of June 30, 2004, the City had \$11,863,324 invested in a broad range of capital assets, including buildings, police and fire equipment, and water and sewer lines. In addition, the City has invested significantly in streets. Streets constructed prior to July 1, 2003, are not reported on the City's financial statements.

### **Economic Factors and Next Year's Budgets and Rates**

The City's budget for the year ending June 30, 2005, calls for no change in property tax rates. Because of the impact of Proposal A, however, the City needs to continue to watch its budget very closely. The state-wide tax reform act limits growth in taxable value on any individual property to the lesser of inflation or 5%. Because some properties increase in value by less than inflation, the mathematical result of this is that the total taxable value for the City will grow less than by inflation, before considering new property additions.

Water usage rates have been increased by the rate of inflation for the year ending June 30, 2005.

CITY OF MARINE CITY

Management's Discussion and Analysis

June 30, 2004

The City of Marine City is concerned about State Revenue Sharing funds due to the State of Michigan's budget problems. In addition, the City's Fringe Benefit costs have dramatically increased due to an increase in the multiplier for Pension calculations. The City's contribution rate increased from 4.23% in Fiscal Year 7/1/03 - 6/30/04 to 10.88% in Fiscal Year 7/1/04 - 6/30/05, as calculated by the City's Actuary. Lastly, the City is now responsible to set aside funds for Retiree's Health Care Cost that resulted from a 312 Arbitration Award a few years ago. According to the City's Actuarial Study, the City needs to set aside 15.67% of the City's full-time active employees payroll for Fiscal Year 7/1/04 - 6/30/05.

**Contacting the City Management**

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. INDEPENDENT AUDITORS' REPORT

September 22, 2004

Honorable Mayor and City Commission  
City of Marine City  
300 Broadway  
Marine City, Michigan 48039

Honorable Members:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Marine City, as of and for the year ended June 30, 2004, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Marine City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the City has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion Analysis -for State and Local Governments*, as of June 30, 2004.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Marine City, as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages i through iv are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Marine City's basic financial statements. The accompanying supplemental information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2004, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Respectfully submitted,

*McBride, Manley & Miller*

REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES  
WITH THE STATEMENT OF ACTIVITIES**

June 30, 2004

Total Net Change in Fund Balances - Governmental Funds	\$ 377,459
<p>Capital outlays to purchase or build capital assets are reported in the governmental funds as expenditures. However, for government activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of net activities. Proceeds from the sale of capital assets are reported as revenue in the governmental funds. For government activities, these proceeds are reduced by the net book value of disposed assets to provide the gain or loss on sale of such assets in the statement of net activities.</p>	
Capital outlay	\$ 110,987
Less: depreciation	(292,047)
Restated gain on disposition of assets	<u>(5,922)</u>
	(186,982)
<p>Delinquent personal property taxes receivable and fire contract revenue were not available soon enough after year end to pay the current period expenditures, and therefore are deferred in the governmental funds</p>	
	14,962
<p>Repayment of loan principal is an expenditure, and loan proceeds are revenue in the governmental funds. Proceeds increase and repayments decrease liabilities in the statement of net assets and do not affect the statement of activities.</p>	
Loan principal payments	611,702
<p>Compensated absences are measured by the amount earned in the statement of activities. In the governmental funds, these items are measured by financial resources used.</p>	
	(99,716)
<p>Interest expenditures are recorded when financial resources are used in the governmental funds. Interest expense is recognized as the interest accrues regardless of when it is due in the statement of activities.</p>

CITY OF MARINE CITY

NOTES TO FINANCIAL STATEMENTS

June 30, 2004

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**DESCRIPTION OF CITY OPERATIONS AND FUND TYPES:** The City of Marine City covers an area of four square miles. The City operates under an elected Mayor and Board of six commissioners and provides services to its residents (approximately 4,500) in many areas including law enforcement, fire protection, and sanitation.

**REPORTING ENTITY:** The financial reporting entity consists of the primary government of the City of Marine City and its discretely presented component units. GASB Statement No. 14, as amended by GASB 39, states that the financial reporting entity consists of (a) the primary government; (b) organizations for which the primary government is financially accountable; and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria for determining the financial reporting entity are separately elected governing body, legally separate entity, fiscally independent, ability to appoint voting majority of governing body, ability to impose its will, and potential for benefit or burden. Certain other organizations warrant inclusion as part of the financial reporting entity because of the nature and significance of their relationship with the primary government, including their ongoing financial support of the primary government or its other component units. A legally separate, tax-exempt organization would be reported as a component unit of reporting entity if all of the following criteria are met:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.
2. The primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

Using this criteria, the following have been determined to be discretely presented component units of the City of Marine City:

T.I.F.A. #1  
T.I.F.A. #2

T.I.F.A. #3

During the year ended June 30, 2004, T.I.F.A. #2 contributed \$35,000 and T.I.F.A. #3 contributed \$85,000 to Debt Service in fulfillment of bond obligations.

All of the component units were established to prevent urban deterioration and encourage economic development and activity as well as to encourage neighborhood revitalization and historic preservation.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The financial statements of the City do not include the Building Authority. This entity is inactive and has no assets, liabilities, or fund balance. The City retains its existence for possible future use. Educational services are provided to citizens through local school districts which are separate governmental entities.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION:** The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

**NOTES TO FINANCIAL STATEMENTS  
(Continued)**

June 30, 2004

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Property taxes and other revenues are recognized in the accounting period when they become measurable and available to finance operations. Properties are assessed as of December 31, and the related property taxes are levied on July 1, and become a lien on the following July 1. These taxes are due on August 31, with a final collection date of February 28, before they are added to the county tax rolls.

Revenues earned and susceptible to accrual are considered available and recognized if received within sixty days after the year end.

The government reports the following major governmental funds:

**GENERAL FUND** - This fund is used to account for all financial transactions except those required to be accounted for in another fund. The fund includes the general operating expenditures of the local unit. Revenues are derived primarily from property taxes, state and federal distributions, grants, protective services, and other intergovernmental revenues.

**MAJOR AND LOCAL STREET FUNDS** - The Major Street Fund accounts for all financial resources of state gas and weight tax revenues that are restricted for use on major streets. The Local Street Fund accounts for all financial resources of state gas and weight tax revenues that are restricted for use on local streets.

**1991 UNLIMITED BONDS SERIES A FUND** - The 1991 Unlimited Bonds Series A Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. This fund is not legally required to adopt a budget, and a budgetary comparison statement has not been presented for the Fund.

The government reports the following major proprietary funds:

**ENTERPRISE FUNDS** - The Water Supply and Sewage Disposal System Fund reports operations that provide services which are financed by user charges or activities where periodic measurement of net income is appropriate for capital maintenance, public policy, management control, or other purposes.

Additionally, the government reports the following fund type:

**PENSION FUND** - This fund is an agent for retirement contributions for the City employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's water and sewer function and various other functions of the government. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned. Residual balances between the business-type activities and the governmental activities are reported as "internal balances."

**CITY OF MARINE CITY**

**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

June 30, 2004

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relate to charges to customers for sales and services. The water and sewer fund also recognizes the portion of tap fees intended to recover current costs (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The government has elected not to follow private sector standards issued after November 30, 1989, for its business-type activities.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

**ASSETS, LIABILITIES, AND NET ASSETS**

**BANK DEPOSITS AND INVESTMENTS:** Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

**RECEIVABLES AND PAYABLES:** In general, outstanding balances between funds are reported as "due to/from other funds." All trade and property tax receivables are shown net of allowance for uncollectible amounts, totaling \$58,993.

**INVENTORIES AND PREPAID ITEMS:** Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**CAPITAL ASSETS:** Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Infrastructure assets acquired prior to July 1, 2003, have not been capitalized and are omitted from the Statement of Net Assets.

Assets are depreciated using the straight-line method over the following useful lives:

Office Equipment	3-15 years
Buildings and Additions	15-60 years
Water and Sewer System	20-40 years
Roads and Sidewalks	20 years
Machinery and Equipment	5-10 years
Water and Sewer Plant and Equipment	20 years

**CAPITALIZED INTEREST:** The City capitalizes interest during the construction phase of proprietary fund assets if financed by revenue bonds. Interest is not capitalized for assets constructed with general obligation debt. There was no interest capitalized for the period.

**COMPENSATED ABSENCES:** The City accrues the liability for future vacation, sick, and other leave benefits that are attributable to employee services already rendered if this obligation relates to vested obligations, the payment of which is probable and can be reasonably estimated. It is the policy of the City to show unpaid vacation benefits as current, as they are payable within one year.

All vacation and vested sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**LONG-TERM OBLIGATIONS:** In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

CITY OF MARINE CITY

NOTES TO FINANCIAL STATEMENTS  
(Continued)

June 30, 2004

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Governmental funds report deferred revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent Property Taxes	\$117,989	\$ --
Special Assessments	<u>2,866</u>	<u>--</u>
	<u>\$120,855</u>	<u>\$ --</u>

**FUND EQUITY:** In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

It is the policy of the City to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

**EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS:** P.A. 621 of 1978, section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. In the body of the financial statements, the City's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets, as amended, of the City for these budgetary funds were adopted to the departmental level and are shown in the supplemental schedules to this statement. Budget amendments require approval from a majority of the City Council. There were no amounts expended in excess of appropriations.

Michigan statute requires that debt fund cash and investments be separate from those of other funds. The City maintains separate accounting records and separate accounts for investment earnings for these funds. The City was in violation of this statute by pooling these funds with dissimilar funds for investment purposes. These accounts have subsequently been segregated in compliance with this statute.

NOTE 3: CASH AND INVESTMENTS

Deposits are carried at cost. Deposits are at Michigan banks in the name of the City of Marine City Treasurer. Michigan Act 20 P.A. 1943 allows a city to make various investments with public monies including, but not limited to, the following:

1. Direct bonds and obligations of the U.S., its agencies or instrumentalities
2. Certificates of deposit, savings accounts with banks, savings and loan associations, or credit unions which are insured with the applicable federal agency and located in the State of Michigan
3. Commercial paper - rated within 2 highest rate classifications by at least 2 rating services and matures not later than 270 days
4. U.S. or agency repurchase agreements
5. Mutual funds - investments which local unit can make directly
6. Bankers' acceptances of U.S. banks
7. Obligations of the State of Michigan or any of its political subdivisions that at the time of purchase are rated as investment grade by not less than one standard rating service

Michigan law prohibits security in the form of collateral, surety bonds, or other forms for the deposit of public money. Attorney General's Opinion Number 6168 states that public funds may not be deposited in financial institutions located in states other than Michigan.

The above investment restrictions do not apply to the City's Pension Fund.

The deposits of the City are in accordance with statutory authority.

Deposits and investments are recorded at cost. The carrying amounts are included on the balance sheet as "Cash and Investments."

The GASB Statement No. 3 risk disclosures for the City's cash deposits are as follows:

Deposits are reflected on the individual fund balance sheet as follows:

Total government funds	\$2,330,369
Total proprietary funds	648,449
Total fiduciary funds	12,017
Total component units	1,208,824
Less cash on hand	( 150)
Total Deposits	<u>\$4,199,509</u>

The above amounts represent bank balances at June 30, of \$4,202,359 of which \$480,416 is insured by the FDIC. The remainder is uninsured and uncollateralized.

Total Investments	<u>\$5,301,587</u>	<u>\$5,301,587</u>

There was no significant variation of investments or amounts invested throughout the fiscal year.

Other fund mutual fund investments are limited to those under SEC Rule 2a7 or like investment pools. In accordance with GASB Statement No. 31, these are carried at amortized cost for financial reporting purposes.

**NOTE 4: RESTRICTED ASSETS AND INVESTMENTS**

Water and Sewer Fund - Restricted Assets:

Per Bond Ordinance 48, as amended by 48A and 57 - cash restricted to pay for asset replacement	\$ 5,000
Per City's designation - cash restricted for sewer construction	<u>9,266</u>
	<u>\$14,266</u>

Pension Fund:

Michigan state statute authorizes a political subdivision to make various investments with assets of public employee retirement systems including, but not limited to, the following:

1. The general account of a life insurer authorized to do business in this state, but the total of the assets invested shall not exceed 50% of the capital and surplus of the insurer.
2. Obligations of the United States or its agencies.
3. Banker's acceptances, commercial accounts, certificates of deposit or depository receipts issued by a bank, trust company, savings and loan association, or a credit union.
4. Commercial paper rated within 3 highest rate classifications by at least 2 rating services and matures not later than 270 days.

The City of Marine City Pension Trust deposits and investments are in accordance with statutory authority.

The Pension Fund investments are as follows:

<u>Investment</u>	<u>Interest Rate</u>	<u>Amount</u>
Paine Webber Cash Fund	Variable	\$ 38,870
Paine Webber Trust Company	Variable	<u>5,247,690</u>
		<u>\$5,286,560</u>

All of the investments are held in the name of the City's Pension Fund.

**NOTE 6: LONG-TERM DEBT**

The government issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the district) are received. Revenue bonds involve a pledge of specific income derived from the acquired or constructed assets to pay debt service.

**NOTE 6: LONG-TERM DEBT (Continued)**

Debt Margin:

Michigan Compiled Law limits indebtedness incurred by cities to 10% of the total state equalized valuation of the city. For the fiscal year 03/04, the state equalized value of the City of Marine City was \$136,928,405; therefore, the legal debt margin is \$13,692,841.

Component Units - Tax Increment Bonds:

At June 30, 2004, the City had a total of \$375,000 of Tax Increment Bonds, series 2001 outstanding. The City has pledged its full faith and credit in the event the Component Unit Debt Retirement Fund does not pay the principal and interest payments as they come due (see page 62 for complete details).

**NOTE 7: INTERFUND/COMPONENT UNIT RECEIVABLES AND PAYABLES**

During the course of operations, numerous transactions occur between individual funds and component units for goods provided or services rendered. These receivables and payables are classified as "Due from other funds/component units" or "Due to other funds/component units" on the balance sheet. NOTE 11: LEASES

The City has entered into two leases for copying equipment. Minimum lease payments under these agreements total \$3,176, \$3,176, \$2,883, and \$2,063 each year during the years ended June 30, 2005, 2006, 2007, and 2008, respectively. These leases have been treated as operating leases. Lease expense for the period amounted to \$8,089.

NOTE 12: EMPLOYEE RETIREMENT SYSTEM

A. PLAN DESCRIPTION

The City of Marine City Retirement System is a single-employer defined benefit pension plan administered by the City of Marine City. The plan provides retirement benefits to plan members and beneficiaries. The City Council of the City of Marine City has the authority to establish and amend benefit provisions. The City does not issue a stand-alone financial report for this Fund.

Substantially all of the City's employees participate in the City of Marine City Retirement System. The payroll for employees covered by the Retirement System for the year ended June 30, 2004, was approximately \$1,402,000, with payroll for the year totaling approximately \$1,900,000. Membership in the Retirement System as of June 30, 2003 (latest actuarial report available), is comprised of the following:

<u>Group</u>	<u>Employees</u>
Retirees and beneficiaries currently receiving benefits	15
Active employees - fully vested	17
- nonvested	9

Employees attaining the age of 55 who have completed 25 or more continuous years of service or who have attained the age of 60 with 10 or more years of service are entitled to annual benefits of 2.25 percent (2.0 percent prior to 2003) of their final average compensation for each year of continuous service. Benefits are reduced by .005 for each month, or fraction thereof, by which the date of benefit commencement precedes the member's attainment of age 60.

The Retirement System allows early retirement at the completion of 15 years of continuous service. Active employees, with 10 or more years of service, who become disabled, are entitled to the same benefit as if voluntarily retired. Disability benefits are paid until the earlier of death or recovery from disability. If the disabled member becomes gainfully employed, the pension benefit is reduced by the amount so earned.

NOTE 12: EMPLOYEE RETIREMENT SYSTEM (Continued)

A. PLAN DESCRIPTION (Continued)

Retiring members have the option of any of the following benefit payment plans:

1. Level straight life pension
2. Refund of a percentage, up to 100%, of the member's accumulated contributions, excluding interest, on the effective date of retirement
3. 100% survivor pension - member to receive reduced benefit with provision for survivor to receive same benefit for life upon member's death
4. 50% survivor pension - member to receive reduced benefit with provision for survivor to receive 1/2 of benefit for life upon member's death
5. Social security coordinated - member to receive increased benefit until age 65 and reduced benefit thereafter

In the event that all level straight life or social security coordinated payments terminate before the member's accumulated contributions are paid, the remainder is to be paid to the member's survivor.

If an employee terminates employment with the City and is not eligible for any other benefits under the Retirement System, the employee is entitled to the following:

- If voluntary retirement conditions have not been met - may receive lump sum payment equal to the larger of (1) the actuarial equivalent of the deferred pension, or (2) their accumulated contributions.
- If voluntary retirement conditions have been met - may receive vested benefits at normal retirement age.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

The Pension Fund uses the accrual method of accounting. Contributions from the City and the City's employees are recognized as revenue in the period in which employees provide services to the City. Investment income is recognized as earned by the pension plan. Benefits and refunds are recognized when paid.

Assets are recorded at market for reporting purposes and at market for actuarial valuation.

Investments, other than U.S. Government securities, that represent 5% or more of the plan's assets are as follows:

<u>Investments</u>	<u>% of Plan Assets</u>
Paine Webber Trust Company	99.0%

**CITY OF MARINE CITY**

**NOTES TO FINANCIAL STATEMENTS  
(Continued)**

**NOTE 12: EMPLOYEE RETIREMENT SYSTEM (Continued)**

**C. FUNDING POLICY**

The contribution requirements of plan members and the City are established and may be amended by the City Council. Plan members are required to contribute 5% of their annual covered salary. The City is required to contribute at an actuarially determined rate; the current rate is 4.23% of annual covered payroll.

The costs of administering the plan are paid from plan assets.

**E. ANNUAL PENSION COST AND NET PENSION OBLIGATION**

The City's annual pension cost for the current year totaled \$58,921, and there was no net pension obligation as of the latest valuation date of June 30, 2003. The annual required contribution for the current year was determined as part of the June 30, 2003, actuarial valuation using an individual entry-age actuarial funding method. The actuarial assumptions included: (a) 7.25% investment rate of return (net of administrative expenses), (b) a long-term inflation rate of 4.5%, (c) projected salary increases of 4.5% per year compounded annually, attributable to inflation, (d) additional projected salary increases ranging from 0.2% to 4.0% per year, depending on age, attributable to seniority/merit, (e) the assumptions that benefits will not increase after retirement, and (f) market value of plan assets at actuarial plan date are used to determine the actuarial value of assets.

CITY OF MARINE CITY

NOTES TO FINANCIAL STATEMENTS  
(Continued)

June 30, 2004

NOTE 12: EMPLOYEE RETIREMENT SYSTEM (Continued)

There was an unfunded actuarial accrued liability of \$504,608 at June 30, 2003. To remedy this, the City's contribution will increase to 10.88% of valuation payroll for 2004 wages. The actuary feels that this will be sufficient to meet the system's financial objective.

NOTE 13: DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with IRC Section 457. The plan, available to all employees, permits them to defer a portion of their current salary until future years.

The City matches employee contributions for those employees who elect not to participate in the City's pension plan. Currently, the City is matching contributions for three employees. The City Council approves the matching contribution rate each year.

All amounts of compensation deferred under the plan, all property and rights purchased with such amounts, and all income attributable to such amounts, property, or rights are held in trust for the exclusive benefit of participants and their beneficiaries.

It is the opinion of the City that the City has no liability for losses under the plan, but does have the duty of care that would be required of an ordinary prudent investor.

NOTE 14: CONTINGENCIES

The City's landfill has not been operated for several years. As of June 30, 2001, the State of Michigan has agreed to supervise and finance the closure of this landfill. The City will be responsible on an on-going basis for the treatment of leachate generated by the site.

During the year, the City discovered that one of its component units, T.I.F.A. #2, has been capturing tax revenues in an area not appropriately included in the district. The City currently believes that this could result in a potential liability of that component unit of approximately \$68,000. However, over 50% of any amounts due would be due to various funds of the City. No provision has been made on the component unit's balance sheet for this potential liability.

NOTE 15: WORKING CAPITAL

The Water Supply and Sewage Disposal Fund has a working capital balance of \$618,802 at June 30, 2004.

NOTE 16: POSTRETIREMENT BENEFITS

The City has agreed to provide postretirement hospitalization insurance to all of its employees as follows:

The City's obligations for these benefits are established by labor contracts. Currently, under these contracts the City is responsible for 100% of the cost of these benefits.

CITY OF MARINE CITY

NOTES TO FINANCIAL STATEMENTS  
(Continued)

June 30, 2004

NOTE 16: POSTRETIREMENT BENEFITS (Continued)

The City has established the Retirees' Health Insurance Fund, to establish a fund to temporarily set aside funds for this obligation on a voluntary basis. This has been treated as a special revenue fund. Commencing July 1, 2004, the City has established a Retiree Health Trust Fund. In the future, the City intends to fund this cost annually, on an actuarially determined basis.

NOTE 17: CHANGE IN ACCOUNTING PRINCIPLE

The City has adopted GASB Interpretation #6 for its accounting for vested vacation accruals for current employees. Previously, such amounts were accrued at year end in the governmental funds. The new accounting principle does not accrue such liabilities at year end in the governmental funds, as a result, the opening balance in accrued vacation has increased fund balance. All compensated absences have been accrued in the entity-wide Statement of Net Assets.

Analysis of the dollar amounts of actuarial value of assets, actuarial accrued liability, or unfunded actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the system's funded status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan. The unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of covered payroll approximately adjusts for the effects of inflation and aids analysis of the progress being made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the plan.

Honorable Mayor & City Council  
City of Marine City  
Marine City, Michigan 48039

Honorable Members:

We have examined the financial statements of the City of Marine City for the year ended June 30, 2004, and have issued our report thereon dated September 22, 2004. Our examination included a study and evaluation of internal control to the extent we considered necessary in order to establish a basis for reliance on the accounting records. As a result of our examination, we offer the following comments and recommendations.

## FRAUD PREVENTION

Our review of the City's policies and procedures with regards to fraud prevention indicate a need for a formal policy regarding fraud prevention. This policy should be clearly communicated to all employees, and contain a specific procedure to allow for employee reporting of any suspected fraud.

## DEBT SERVICE

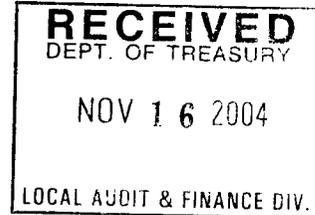

Current Michigan statutes prohibit the commingling of debt fund cash and investments with those of dissimilar funds. While the City accounts for these accounts separately, an actual separation of these accounts is required under the statute. The City has separated these accounts subsequent to the period of our audit.

In addition, the City should consider performing a review of its various outstanding long-term debts. Several of these obligations were issued at interest rates that are significantly higher than those available under the current market conditions. A review should be made to determine if there are significant interest savings to be realized through either refinancing or early repayments on any of these obligations.

## GASB 34 IMPLEMENTATION ISSUES

For the fiscal year ending June 30, 2004, the City was required to implement the new financial reporting standards as issued by the Governmental Accounting Standards Board pronouncement number thirty-four. The quality of the City's staff, and the general condition of the City's records, made this transition relatively easy. There remain, however, implementation issues that require council decisions.

A decision that should be made prior to the year ending June 30, 2006, is the City's intentions with regards to the capitalization of infrastructure assets constructed prior to July 1, 2003. We will discuss this issue in detail with the Council prior to the required decision date.

CONCLUSION

As in the past several years, the City should be commended on the accuracy and completeness of its accounting systems, procedures, and financial reporting.

We would like to thank the City Manager, Treasurer, Clerk, and other City personnel for the cooperation and courtesies extended to us during our audit.

Respectfully submitted,

*McBride, Manley & Miller*
